Support during maternity leave and/or parental leave

Family is our strongest network. That is why the DFG strengthens young families by financing an MTA to support them during family leave as an additional worker. The funding will be allocated to individual approved projects within the entire Microbone consortium – each 3 – 6 months.

1. Please **consider institution's internal regulation** at first! Get in contact with your "Familienbüro" and "Personalabteilung" on-site and finally, get in contact with the coordinator to check for how long a financing might be possible.
2. It needs a "Weiterleitungsvertrag" between your institution and TU Dresden.
3. The following information are initially necessary:
 - Copy of your "Bewilligungsbescheid" from your project.
